

The art of simplicity rather than ostentatious splendor is our conception of luxury. It was around this ideal that Le Roch Hotel & Spa, a 37 room boutique hotel with the spirit of a home, offering a sincere welcome, was conceived. The interior design is the work of a true Parisian, Sarah Lavoine. With her aesthetic sense and superb craftsmanship she finds true expression in all aspects of creativity that interest and inspire her, whether that be color, furniture and authentic objects, pure materials or simple line.
