OPENING LAST QUARTER 2019

Esquisse : Gilles & Boissier

In 2019, the Barrière Spirit will reach the tropical paradise of Saint Barth. Hôtel Barrière Le Carl Gustaf Saint-Barth, completely redesigned by Gilles & Boissier will open the doors at the end of the year. Transposing the local culture through art, adding contemporary touches to the Caribbean architecture, is the main focus of the Parisian designers.

Large windows opening onto the tropical garden and the sea create an impression of endless space throughout the hotel.

This sun-drenched getaway offers an unforgettable experience of exoticism and refinement.
