## - WHERE THE DREAM BEGINS -

*The story of the Chalet del Sogno*

Nature and technology blend harmoniously in this elegant chalet, just a short walk from the ski slopes and from the centre of Madonna di Campiglio, in the heart of the Brenta Dolomites.

Built in 2006 according to the principle of bio-architecture, and geo-thermally heated, the chalet is quite unique in the Alpine region. Simple, timeless materials like local wood and stone give the building a distinctive, welcoming character typical of mountain homes.

The chalet is the result of one family's love for Alpine nature and traditions. The Schiavon family put their dreams into practice after living in the area for 30 years, and still run the business today. Their commitment is to offer you a personal, family welcome during your stay.

**- REST -**  
*The eighteen Suites*

The chalet boasts eighteen spacious bedrooms, all intimate, refined, sound-proofed, bio-conditioned and decorated with characteristic features based on the theme of local flora and fauna.

Wood panelling in fir, larch or Swiss pine, large bathrooms with hydro-massage tub or shower, panoramic balconies and beautifully made majolica heating stoves create a superbly comfortable environment.

The three floors of the hotel are characterised by a theme that runs vertically through each suite. Starting with five colours inspired by Alpine flowers, the theme continues on the higher floors as a decor based on plants and animals from the same habitat.

*“Local aromas, furnishings, materials and products guide you through a fascinating Alpine environment one you can enjoy from the privacy of your own room. “*

Luxury Suite Arnica - Arancio

## - A GOOD START TO THE DAY -

### *The Breakfast*

A rich buffet breakfast is provided, with a wide range of locally produced, organic foods to choose from.

*"All our breakfast products have been selected for their unique quality, and come from farms and producers in nearby valleys."*

Different types of freshly baked bread, white, wholemeal, cereal and seeded, can be sampled along with honey from a local beekeeper, fruit jams, fresh mountain cheese, classic cured meats and even game from local forests.

You can also find trout and char from local streams and rivers, and eggs cooked in a different way each day. Then there is yogurt, berries, seeds and dried fruit, and a range of cereals and muesli. There is fresh fruit, home-made cakes and tarts too, and even a small menu from which you can order whatever you want. We also have a corner dedicated to gluten-free foods.

Bottles of natural spring water, still and sparkling, organic juices, sparkling wine, coffee and various teas and infusions complete our breakfast offering.

**- CONTEMPORARY KITCHEN,  
TRADITIONAL EXPERIENCE -**

*The Restaurant Gourmet "Due Pini"*

A world of great food, and an enchanting atmosphere in which to savour it.

The main dining room revolves around a hand-decorated majolica stove, and natural materials sourced from nearby valleys enrich areas decorated with themes inspired by the history of Campiglio.

These range from golf to mountaineering, skiing of course, and hunting, the theme of the main room.

The food is traditional but prepared with a contemporary touch. Typical local flavours are presented in gourmet style, and special care is taken to select raw materials from local farmers whenever possible.

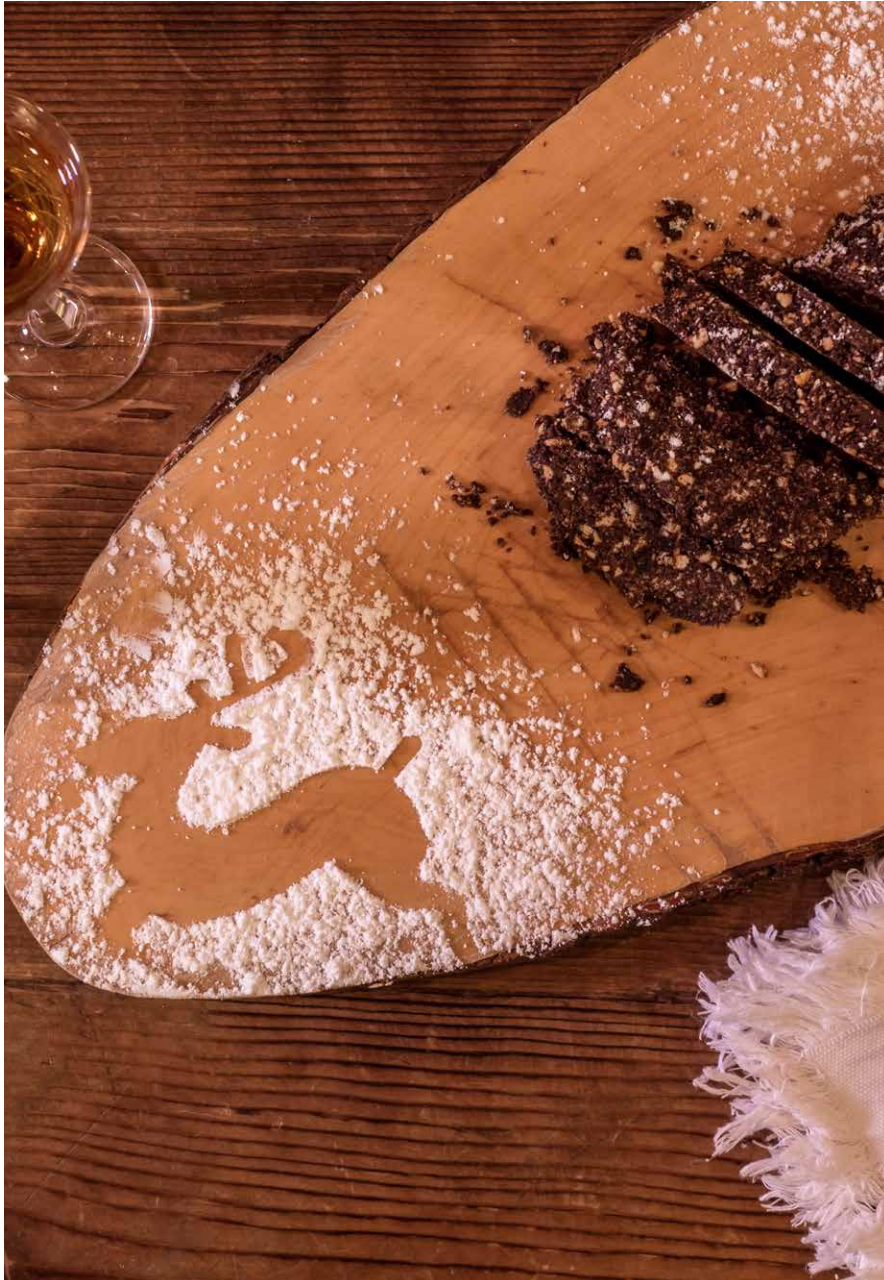

*"This genuine cuisine is the result of our love for seasonal products from local Alpine woods and meadows. It is also the result of our quest for Italian excellence, presented in an exquisitely simple manner."*

**-A DIFFERENT CORNER -**  
*The Stube del Dom, the Terrace and the Bar*

An elegant, exclusive environment with only four tables, attentive, personal service and a warm, candlelit atmosphere are the key features of the original and welcoming Stube del Dom room.

Here, you can relax in comfortable armchairs in the bar corner and enjoy a quiet read in the warmth of the wood burning stove, sip a warming chocolate drink with cakes, or savour one of our wide range of liqueurs. Or you can chat while relishing the flavour of grappa, the traditional local spirit. Infusions, delicious selected snacks and prestigious pralines are all on offer too.

The light and warmth of the sun cheers the large terrace in front of the chalet entrance until sunset. The terrace is made from slabs of porphyry and granite, local stone from nearby hills, and is surrounded by mountain pine and wild flowers. It affords a view of the 3Tre, the legendary theatre of the Ski World Cup, and is the ideal place to enjoy a snack or an aperitif in a quiet corner of Madonna di Campiglio.

- RELAXATION -  
The "Oasi del Sogno"

Wellbeing is an alchemy of movement and relaxation that finds a natural home in our "Oasi del Sogno. Various innovative, professional and traditional wellness and fitness routes are available.

The walls are finished in a special resin and straw covering and the relaxation zone is decorated with genuine ancient wood. The ergonomic loungers are made in larch wood by local craftsmen.

Let yourself be soothed by the inebriating aroma of Alpine fragrance aromatherapy in the bio-sauna and then come alive to the refreshing chill of a characteristic ice fountain. You can use a wide range of fitness equipment, including an equipped gym and aqua-fitness equipment in the swimming pool. Or you can pamper yourself with an expert massage and enjoy the benefits of our unique Biodream joy machine. A range of personalised beauty treatments based on natural creams, and the availability of an Olympic athlete to help you reach the top of your form, make the "Oasi del Sogno" the ideal place to restore harmony between body and soul.

## - DESTINATION -

### *Madonna di Campiglio and Brenta Dolomites*

Madonna di Campiglio was orn during the 12th century, when a little lodging and a church were built. By the end of the 1800's it had become a well known summer location for the Mitteleuropean aristocracy, including the Austrian Emperor.

In 1910 it was time for the introduction of skiing, when a group of english people discovered its winter beauty, quickly becoming one of the most exclusive ski resort in the Alps.

Surrounded by breathtaking scenery of the Dolomites (Unesco World Heritage) and the majestic glaciers and granite peaks of the Adamello Presanella Group, it is a unique place with unequalled character that has become the "Pearl of the Dolomites".

Today Campiglio offers one of the largest ski areas, with 150 km of slopes, more than 59 renewed lifts, two golf courses, and endless trekking and mountaineering opportunities, including the world famous climb/trek "Vie ferrate", a world of mountain bike trails: an environment that simply abounds in winter andsummer activities, or just a perfect place for a dream vacation deep in the heart of unspoilt nature.
